PUREZZA BENEFITS

BETTER FOR YOUR GUESTS. BETTER FOR YOUR BUSINESS.

Premium purified water on demand, less waste, simpler operations and more value in every pour.

REDUCE YOUR CARBON
FOOTPRINT

Reduce reliance on single-use bottled water and the transport, storage and waste that comes with it.

UNLIMITED PREMIUM WATER
ON TAP

Premium still and sparkling water, freshly purified, perfectly chilled and ready to serve on demand.

EXPAND YOUR
BEVERAGE MENU

Create premium sodas, spritzes, mocktails, iced teas and more using one versatile system.

BOTTLE YOUR PROFIT

Replicate what you're buying in the bottle at a fraction of the cost while creating a premium, high-value water offering.

CONTROL YOUR RETURN

You control how you generate revenue - charge per bottle, offer unlimited water or include it within functions and packages, all for one low, fixed cost.

INCREASE OPERATIONAL
EFFICIENCY

Less stock to order, store, chill and manage, freeing valuable fridge space and saving staff time.

OUR SAFETY & QUALITY ASSURANCE

CERTIFIED FOR CONFIDENCE.

Delivering safe and hygienic water solutions to our customers is of the utmost importance for Purezza. We are certified by the following well respected and world-renowned organisations.

WHY IS HACCP IMPORTANT?

- Food contamination is a major health problem in Australia.
- Food safety procedures must be rigorously enforced to ensure these standards are consistently met.

WHY IS WORKING WITH A LICENSED PLUMBING COMPANY IMPORTANT?

- It's important to work with a licensed plumbing company like Purezza for all installation and maintenance work.
- Choosing Purezza helps ensure your business receives professional, compliant, and reliable service.

PUREZZA IS PROUDLY TESTED & CERTIFIED BY:

A MORE SUSTAINABLE WAY TO SERVE WATER

As a leading, global company we recognise the importance of working towards goals of zero emissions and waste and we are committed to reducing our environmental footprint. At the same time, we want to create long-term value for our customers through sustainable water solutions that positively impact your bottom line.

We are on track to realise our vision to remove 30 million single-use bottles annually from the global hospitality supply chain contributing to a more sustainable hospitality industry.

A Snapshot of Our Sustainability Milestones

- 45 billion single-use plastic water bottles avoided annually through Culligan solutions.
- 1.5 million square feet of foam packaging diverted from landfills every year by replacing it with fully recyclable cardboard fillers.
- Switched to pulp-based packaging for all bottleless coolers, reducing expanded polystyrene use from 30 metric tons in 2024 to zero by 2026.
- Commenced dry testing in 2025, replacing traditional water testing processes, with 300,000 litres of water savings expected annually.
- 35% of our global car fleet is electric or hybrid, reducing transport emissions.
- Donated over 9 million litres of water globally in 2025.
- Our ESG program won the 2025 Business Intelligence Group's Sustainability Leadership Award.

WHAT OUR CUSTOMERS SAY

- Dario Strittmatter,
Duxton Hotels

“Purezza has enabled us to align our sustainability goals with our operational needs, all while enhancing the experience for our guests. It’s been a win-win for everyone involved.”
- Kenny Le,
Luna Lu, NSW

“Purezza is a nice easy clean water system that I can use which saves me a lot of storage space. If other venues do consider Purezza, it’s a great investment in their business. It does help them reduce their cost. It helps them change how they do their service and it’s just better for your guests.”
- Pierre Amillet,
La Louisiane, SA

“Purezza had a huge impact on the business because with Purezza we are 100% sure we have quality water in La Louisiane. I would definitely recommend Purezza for the other venues in my group.”
- Nick Mavridis,
Estia Restaurant, SA

“ We decided Purezza was the way to go for ease. It’s made our lives much easier. We don’t have to store so much sparkling water, we don’t have to refrigerate it and it’s a great thing for the environment too.”
